BUNN Means Exceptional Quality

Since George Bunn invented the fluted commercial paper coffee filter in 1957 and later the pourover coffee brewer, the name BUNN has come to represent exceptional quality in commercial and home beverage equipment.

A leader in innovation, BUNN developed new products in each of the last five decades, expanding its products from coffee brewers to a full line of beverage equipment including tea, juice and frozen beverages.

BUNN continues to strive toward total customer satisfaction through well-constructed equipment and unmatched customer service.

We welcome you to visit our website at www.bunn.com. Here you may view and download equipment photos and specifications, manuals and sales literature. You may also see information about our newest products and trade show schedules.

BUNN *Beverage Equipment Catalogue*

As you thumb through this catalogue, you will notice colour-coded sections, equipment photos, dimensional drawings, and product grids with an abundance of information. These grids incorporate product numbers, electrical configurations and agency listings that will assist you in making the best equipment selection for your location and needs.

Easy to find, colour-coded sections

Infusion Coffee Brewer

ICB
(TF Server and airpot sold separately)

PRODUCT FEATURES
- Brews 19.3 to 45 litres of perfect coffee per hour.
- Large 11.36 litre tank provides back-to-back brewing capacity.
- Three brew buttons allow for 3 separate brewing profiles. Two programmable batch switches allow full and half batch brewing.
- Brews into 2.5 to 3.8 litre airpots and 3.8 and 5.7 litre baseless ThermoFresh™ servers for easy transport of coffee to other locations.
- BrewWISE® intelligence with pre-infusion and pulse brew for maximum flavour extraction. DBC grinder communicates with brewer through Smart Funnel®.
- Energy-saver mode reduces tank temperature during idle periods.
- Alphanumeric display communicates advertising messages, machine status and technical support contact information in English and Spanish. Display capable of showing English or Metric measurements.
- Programmable filter change alert.

ELECRICAL REQUIREMENTS

230 Volt 50/60Hz models require 2 wires plus ground service rated 220-240V, single phase.
220 Volt 60Hz models require 2 wires plus ground service rated 220-240V, single phase.
120 Volt 60Hz models require 2 wires plus ground, single phase.
120-208/240 Volt models require 3 wires plus ground service rated 120/208V or 120/240V single phase, 60hz.
100/200 Volt 50Hz models require 2 wires with ground, single phase.
Multi-Phase models: 3-Phase to phase = 400V (will work on any voltage rated 380-415). Phase to neutral = 230V.
4 wire plus ground, 50/60Hz, 3 active heaters.
1-Phase - Voltage = 230, 2 wire plus ground, 50/60Hz, 2 active heaters.

Please refer to installation manuals for complete specifications and instructions.

Satellite
Coffee Systems

BUNN®

For use in a cafeteria, meeting room or quick-serve setting, BUNN satellite brewer systems will consistently deliver fresh, hot coffee to your customers.

The BUNN BrewWISE® system integrates several components to keep the coffee fresh and hot for hours, saving time and ultimately putting more money in your bottom line.

BrewWISE intelligence means the brewing system manages the grinding and brewing process from start to finish. The Smart Hopper® communicates the coffee type to the grinder. The grinder adjusts the grind time for each batch, giving you the correct grind volume every time. The coffee recipe is then transmitted to the Smart Funnel®. The BrewWISE brewer reads the information in the Smart Funnel, adjusts the recipe, and brews a perfect batch of coffee.

For maximum merchandising, don't forget to have customized wraps made for your BrewWISE ThermoFresh® brewers.

Consistency, profit, freshness and reliability; what matters to you, matters to BUNN.

BrewWISE® Single ThermoFresh® DBC Brewers

BrewWISE Single TF
(server sold separately)

PRODUCT FEATURES

- Brews 43.2 litres of perfect coffee per hour in 1.9, 3.8 or 5.7 litre batches.
- Stores individual coffee recipes.
- Large sprayhead and BrewWISE intelligence with pre-infusion and pulse brew for maximum flavour extraction.
- Coffee strength controlled with variable by-pass.
- Wireless brewer-grinder interface via Smart Funnel® with SplashGard®.
- Metric volume and Celsius temperature settings.
- Simplify installation and calibration by creating coffee recipe cards and dedicated funnels with the Recipe Writer using your PC (U.S. and English Microsoft Windows® compatible).
- Equipped with tank drain.

Dual® Brewer with Portable Server

Dual

PRODUCT FEATURES

- Dual brews 61.7 to 71.5 litres of perfect coffee per hour in 1.9, 3.8 and 5.7 litre batches.
- Adjustable bypass ensures perfect coffee regardless of batch size.
- Upper hot water faucet on all models does not affect brew level.
- Electronic timer ensures fast set up and accurate brew levels.
- Electronic grinder interface instructs grinder on exact amount of coffee for selected brew batch size.
- 5.7 litre, 1.5 GPR portable servers (included) have a patented Safety-Fresh® brew-through lid with vapour seal and spill protection.
- SplashGard® funnel deflects hot liquids away from the hand.

BUNN®

BUNN® airpots, thermal servers and thermal carafes are perfect for specialty coffee shops, breakfast bars or meeting rooms.

Serve delicious, premium coffee made by one of many BUNN brewers specifically designed to brew directly into airpots, thermal servers or thermal carafes.

Offer your customers variety and accessibility, with easy-to-transport airpots. Merchandise them using a BUNN airpot rack that will give customers up to six choices of hot, fresh coffee and tea. Also, don't forget to order a customized wrap to showcase your name or coffee flavours.

Greater serving convenience adds up to better sales and profits from your coffee program.

Convenience, variety, profit and accessibility; what matters to you, matters to BUNN.

Infusion Coffee Brewer

ICB
(TF Server and airpot sold separately)

PRODUCT FEATURES

- Brews 19.3 to 45 litres of perfect coffee per hour.
- Large 11.36 litre tank provides back-to-back brewing capacity.
- Three brew buttons allow for 3 separate brewing profiles. Two programmable batch switches allow full and half batch brewing.
- Brews into 2.5 to 3.8 litre airpots and 3.8 and 5.7 litre baseless ThermoFresh® servers for easy transport of coffee to other locations.
- BrewWISE® intelligence with pre-infusion and pulse brew for maximum flavour extraction. DBC grinder communicates with brewer through Smart Funnel®.
- Energy-saver mode reduces tank temperature during idle periods.
- Alphanumeric display communicates advertising messages, machine status and technical support contact information in English and Spanish. Display capable of showing English or Metric measurements.
- Programmable filter change alert.

Automatic
Decanter Coffee Brewers

BUNN®

Nothing entices customers like the inviting aroma of freshly brewed coffee. Whether you serve at the table or your customers serve themselves, BUNN® automatic decanter brewers market the sight and aroma of your delicious coffee.

No matter how much coffee you serve each week, there's a BUNN automatic decanter brewer that will deliver maximum profits for your serving volume. Thanks to an interior reservoir that keeps water always at brewing temperature, a fresh pot of coffee is just minutes away.

Serve great tasting coffee whenever you need it in a coffee brewer that fits your operation.

Freshness, tradition, options and profit; what matters to you, matters to BUNN.

Digital Automatic Coffee Brewer with LCD

AXIOM
2 upper, 1 lower
(decanters sold separately)

AXIOM

Pourover and Pod

Brewers

BUNN®

Enjoy restaurant-style coffee in your office. With BUNN®, you have several brewer options to suit your needs.

There is no need for a water line with the BUNN series of portable, pourover coffee brewers. Just plug it in, pour cold water through the top of the brewer, and in just minutes, enjoy a fresh hot cup of coffee.

The new BUNN My Café® pod brewer enables you to brew your own cup of quality coffee. Want a cup of hot tea instead? No problem! My Café allows you to pulse brew a perfect cup of hot tea. Use tea or coffee pods or tea bags for no mess. Have your very own pod brewer right in your office.

Portability, convenience and quality; what matters to you, matters to BUNN.

My Café Automatic and Pourover

My Café Automatic

My Café Pourover

My Café Merchandiser and Pod Rack Assembly
(sold with or without My Café brewer)
(accessories and pods sold separate)

Pod Rack
(pods sold separately)

**Please refer to specification sheets found on-line at www.bunn.com for detailed drawings.*

PRODUCT FEATURES

- Patented pod drawer works with most coffee and tea pods, from 45 to 61 mm.
- Fast brew in about 30 seconds; brew tea in less than one minute.
- Patented sprayhead allows extraction of all coffee flavouring materials and aromatics.
- Tea button features pulse brew technology to provide steeping action.
- Brew 4 to 12 ounces (118 - 355 mL) of coffee or tea to preferred strength by adjusting the portion/volume control.
- Easy to use and maintain with a removable water reservoir, a drawer-style pod holder that keeps hands clean and dry at all times, and dishwasher safe components.
- Energy-saver mode reduces tank temperature during idle periods.
- Automatic model is connected to waterline, eliminating the need to manually refill reservoir.
- Includes two pod holders.

MERCHANDISING SYSTEM

- Two-part system for merchandising single-cup coffee programs.
- Brew station accommodates My Café® or other brewers less than 8.5" (21.6cm) wide.
- Designed with four pull-out drawers to hold coffee condiments and stir sticks.
- Separate drawer for storage.
- Additional space for cup placement.
- Full color graphics for maximum merchandising.
- Available in a variety of single item pieces or combination sets.

POD RACK

- Pod racks, sold with brew station or separately, are designed to showcase a variety of coffee and tea pods.
- Adjustable shelf to merchandise a variety of pod box sizes.
- U-channels included to secure to brew station or additional pod racks.

Coffee Grinders

BUNN®

The aroma of fresh ground coffee lets your customers know that you care about delivering the best possible coffee to them. With the BUNN® family of coffee grinders, you will always provide maximum freshness.

Perfect for specialty coffee shops, retail stores, restaurants or even the office, BUNN coffee grinders unlock the secret to fresh tasting coffee.

From grinding small portions to large quantities, BUNN makes a coffee grinder that is perfect for your needs. With the BUNN Multi-Hopper Grinder, grind a wide variety of specialty and regular or decaf beans, and release the aroma that will tempt your customers.

BUNN uses only precision milled burrs to shave the coffee beans allowing for maximum flavour extraction.

Precision, profit, innovation and freshness; what matters to you, matters to BUNN.

Multi-Hopper Grinder

MHG
(Black)
(funnel sold separately)

MHG
(Stainless)
(funnel sold separately)

PRODUCT FEATURES

- Convenient, front-loading hoppers allow grinding of a wide variety of coffees.
- Hoppers hold up to 2.75 kg each of regular, decaf or specialty beans.
- Stores individual coffee grind weight profiles.
- Portion controlled for the right amount of coffee, with three batch sizes per hopper.
- Precision burrs for consistent, commercial quality grind.
- Easy-to-clean removable hoppers.
- LCD alphanumeric display shows coffee names and diagnostics.
- Accommodates all BrewWISE® Smart Funnels®.
- BrewWISE® intelligence means the Smart Hopper manages the grinding and brewing process from start to finish.
- Smart Hopper tells the grinder what coffee is in it through a microchip in the hopper.
- Create coffee recipe cards with BrewWISE recipe writer on your PC. See page 2.
- 3-year warranty on grinding burrs.

BUNN®

Serve tea steeped the traditional way with a BUNN iced tea brewer. Years of experience show that more customers prefer the taste of freshly brewed tea.

With the Infusion Tea and Coffee Brewer (ITCB), great tasting, freshly brewed tea will be made consistently every time. Pre-infusion and pulse brew technology allow for maximum flavour extraction of the tea leaves. For a great alternative, use the Infusion Tea and Coffee Brewer to brew delicious hot coffee or tea.

Increase your beverage profits with freshly brewed iced tea when you add a BUNN iced tea brewer to your beverage line-up.

Maximum flavour, profit and experience; what matters to you, matters to BUNN.

Infusion Series® Tea and Coffee Brewer

ITCB
(Airpot and dispensser sold separately)

PRODUCT FEATURES

- Brew three beverages (iced tea, hot tea, hot coffee) from one model.
- Large tank provides back-to-back brewing capacity and allows 11.4 to 18.9 litres tea batches.
- Brews 17-28 litres of hot coffee per hour.
- Brews into all BUNN iced tea dispensers (except TDS-5) and 1.9 to 3.8 litre airpots and baseless servers.
- BrewWISE® intelligence with pre-infusion and pulse brew for maximum flavour extraction. Digital temperature control and cold brew lockout.
- Alphanumeric display communicates advertising messages and machine status in English and Spanish.
- Brew counter keeps track of how many batches brewed.
- Additional iced coffee recipe included.
- Equipped with tank drain.
- Black plastic coffee funnel and separate tea funnel included.
- Integrated flip tray converts to three positions: thermal carafe, airpot and tea dispenser.

Specialty Drink Dispensers

BUNN®

Add versatility to your beverage selection with BUNN® specialty drink dispensers. Give your customers more options; choose from juice, cappuccino, sports drinks, frozen drinks, even soup.

With the BUNN Gourmet Juice® Dispenser, you have the flexibility to choose what products are most profitable. Built to be the best, the BUNN Ultra™ Gourmet Ice® gives you high quality frozen drinks - every time.

The new BUNN iMIX™ Hot Powdered Beverage Dispensers take cappuccino and other hot beverages to the next level of sophistication and taste. Sleek styling and a large lighted graphic panel beckon your customers to try their favourite beverage.

Versatility, options, consistency and profit; what matters to you, matters to BUNN.

Gourmet Juice® System

JDF-2 JDF-2S JDF-2S IC

PRODUCT FEATURES

- One dispenser delivers both frozen and ambient products.
- Quick dispense with 44.4 to 59.2 ml per second flow rate.
- 20.8 cm cup clearance accommodates most juice containers.
- 4.5 kg ice bank assures cold product.
- Drink consistency and quick dispense assured by the High Intensity® mixing chamber's "stay clean" valve design.
- Pumps and mixes 4:1 high viscosity and 5:1 juices accurately and consistently.
- Advanced concentrate pump designed for easy setup, accuracy and durability.
- Superior sanitation control with added rinse-water valve-port that may be connected to a hot water line.*
- Smart electronics prompt for rinsing and provides semi-automatic sanitizing program for easy cleaning.*
- Equipped with tank drain.

** Does not apply to JDF 2S models.*

iMIX™ Dispenser with 4 and 5 Hoppers

iMIX-4 PC
(Portion Control)

iMIX-5
(Push Button)

PRODUCT FEATURES

- iMIX-4: Four, 3.6 kg hoppers
  iMIX-5: Five, 3.6 kg hoppers
- Lighted front graphics for merchandising.
- Large 27.6 litre hot water tank to meet peak serving times.
- Cup clearance at 18.4 cm to accommodate popular cup sizes.
- High speed, heavy-duty whipper for complete product mixing.
- Front of machine access for easy service, set-up and calibration.
- Easily removable side panels for complete access to service components.
- Variable speed motors allow control of product consistency in mixing chamber (1.5 to 12 grams of powder per second).
- Key lock on door prevents tampering.
- Low product detection system.
- Digital technology adds night mode to prevent pilferage.
- Alphanumeric display in English and Spanish.
- Spring-loaded, all metal auger drive system for easy hopper installation.
- Auger motors with RPM feedback monitoring assure consistent flavours and profits by controlling powder dosing.

Paper Filters

BUNN® developed the first flat bottomed fluted commercial paper coffee filter in 1957. We know that consistent paper porosity and filter structure is critical to delivering the same great tasting cup of coffee to your customers, every time.

A special grade of paper is used in every filter, assuring optimum extraction of your coffee's taste. You'll never have to worry about coffee grounds overflowing into your coffee with the filter's superior stay-in-place design.

Selection of coffee filters is a vital step in brewing perfect coffee – don't settle for anything less than BUNN quality coffee filters.

All BUNN filters are made from 100% virgin pulp and approved by the Federal Food and Drug Administration (FDA). They are oxygen whitened, chlorine free and naturally biodegradable. No formaldehyde is used in the manufacturing of BUNN filters. Our supplier does not ship the paper to us until they believe it to be completely safe and well below the limit set by the Environmental Protection Agency. Bunn-O-Matic will not buy any paper stock which does not meet high standards of purity.

Dimensions in millimetres

Paper Filters

Filter Type	Product Number	Description	Number per Bag	Bags per Case	Number Cluster	Overall Measure x Base Diameter (millimetres)	Packed per Case	Case Weight (lbs/kg)

Scale-Pro

BUNN® water quality filtration systems, when used with BUNN brewing equipment, ensure that your customers are getting the best tasting beverage possible. The Easy Clear® High Performance filters are manufactured to BUNN specifications and address water problems such as taste and odour; sediment, limescale and hardness.

Choose the right water quality system for your BUNN brewing equipment and enhance the flavour of your beverages.

Quality, profit and consistency; what matters to you, matters to BUNN.

New EQHP System:
All systems (except Scale-Pro) are for Taste and Odor
All EQHP10/25/54 filters include Sediment Filtration
All systems are Quick Change
L = Lime
SFTN = Softner
ESP = Espresso
